- 3.3 This Agreement sets out the basis on which the Company agrees to provide its Services.
- 3.4 This Agreement is provided to assist the Client in making an informed decision about the Company, its services and the risks of the Financial Instruments.

3.5 This Agreement should be read in its entirety in deciding whether:

- a) to buy, sell or to continue to hold any Financial Instrument; and/or
- b) to be provided with the Services.

3.6 If the Client does not conclude this Agreement in its own name and for its own account, the Client shall be obliged to, at any time, submit data on the persons and/or entity on whose behalf it concludes the Agreement, at the request of the Company.

4. PROVISION OF SERVICES

4.1 The Company will provide to the Client the following Services:

Execution of orders on behalf of Clients in relation to the Financial Instruments below:

- a) Contracts for Differences on spot FOREX, spot precious metals, futures, shares or any other commodities available for trading

4.2 The company will also provide the following ancillary services:

- b) Foreign exchange services where these are connected to the provision of investment services
- c) Investment research and financial analysis or other forms of general recommendation relating to transactions in financial instruments.

4.2 The Services shall involve Transactions in Financial Instruments traded outside the Regulated Markets (example CFD market). By accepting this Agreement the Client acknowledges and agrees that he has given express prior consent to the execution of orders by the Company outside a Regulated Market.

5. ACKNOWLEDGMENT OF RISKS

5.1 When the Client trades CFDs with the Company, the Client will be entering into an off exchange (OTC) derivative transaction, by placing his orders through the Company's trading platform. OTC transactions may involve greater risk than investing in on-exchange derivatives because there is no exchange market on which to close out an open position.

The Client needs to open and close a position with the Company that is not transferable to any other person. In this case, the client may be exposed to the risk of the Company default.

- 5.2 Contracts for difference, options, futures, swaps, forward rate agreements and many other derivatives (including most put options) are leveraged products and involve a high level of risk. It is possible for the Client to lose all his capital invested. Therefore, these products may not be appropriate or suitable for everyone and the Client should ensure that he understands the risks involved. The Client will not be required to cover losses exceeding his invested capital as the Company applies a negative balance protection policy. If the Client considers that he is not properly able to understand the investment risks involved he should seek independent advice.
- 5.3 The Client unreservedly acknowledges and accepts that, regardless of any information, which may be offered by the Company, the value of any investment in Financial Instruments may increase or decrease and there is a substantial risk that the investment may become of no value. In the case of Financial Instruments which are contracts for differences or other contractually based derivatives the entire amount of margin deposit may be lost.
- 5.4 The Client acknowledges that the Company has not solicited, or in any other way recommended his/her participation in trading with the Company pursuant to any particular trading system, and that the Client has made inquiries and conducted research sufficient to make an informed investment decision.
- 5.5 Client unreservedly acknowledges and accepts that he runs a great risk of incurring losses as a result of purchasing and/or selling any Financial Instrument and the Client accepts and declares that he is willing to undertake this risk.
- 5.6 The Client acknowledges and accepts that the Company does not provide any investment advice. The Company is not acting as an advisor to, or serving as a fiduciary of, the Client, and the Company specifically disclaims any such duties.
- 5.7 The Client confirms that the funds deposited to the account held with the Company are derived from legitimate sources. The Client further acknowledges and confirms that he/she has the financial resources and relevant knowledge to make an informed decision regarding the funding and trading of the account, and that the Client is trading on his/her own behalf and on his/her own accord.
- 5.8 The Company's services include products that are traded on margin and carry a risk of losing all client's initial deposit. Before deciding on trading on margin products a Client should consider his/her investment objectives, risk tolerance and his/her level of experience on these products. Margin products may not be suitable for everyone and Client should ensure that he/she understands the risks involved. The Client should be aware of all the risks associated in regard to products that are traded on margin and seek independent financial advice, if necessary.

6. ELECTRONIC SYSTEMS AND TRADING

- 6.1 The Company shall provide the Client with Access Codes for entering into Transactions or dealings with or through the Company. Such Access Codes can be used to access the Electronic Systems. Any such dealings shall be carried out on the basis set out in this paragraph and on the basis of any additional agreement which the Company may enter into with the Client to regulate such activity.
- 6.2 The Client acknowledges and accepts that the Company has the right to restrict any access to its Electronic Systems where it deems appropriate, for the smooth operation of its Electronic Systems as well as to protect other client's interest and its own. The Client will only be entitled to access the Electronic Systems and enter into dealings for its own use on a non-exclusive, non-transferable basis.

The Client will have no right or interest in those intellectual property rights other than the right to access the Electronic Systems. The Client shall not copy, license, sell, transfer, make available the Electronic Systems or information on the Electronic Systems to any other person. The Client shall not remove or alter any copyright notice or other proprietary or restrictive notice contained in the Electronic Systems.
- 6.4 The Client shall take all necessary precautions to ensure the confidentiality of all information, including, but not limited to, the Access Codes to the Electronic Systems, Transaction activities, account balances, as well as all other information and all orders. The Client shall be solely responsible for all orders and the accuracy of all information sent via the internet using its Access Codes. The Client acknowledges that the Company bears no responsibility in the case that the Access Codes are used in an unauthorized manner. The Client undertakes to notify the Company immediately if it comes to his attention that the Client's Electronic System Access Codes are being used unauthorized.
- 6.5 To the extent permitted by Applicable law, the Company shall not be liable for:
- (a) any loss, expense, cost or liability (including consequential loss) suffered or incurred by the Client as a result of instructions being given, or any other communication being made via the internet, using distance communication media, or other electronic media; the Client shall be solely responsible for all orders, and for the accuracy of all information, sent via such electronic media; and
 - (b) any loss or damage that may be caused to any equipment or software due to any viruses, defects or malfunctions in connection with the access to, or use of, the Electronic Systems.

- 6.6 If the Client should uses a third party software application to provide trading signals or advice or other trading assistance (an “Expert Advisor”) or uses MetaTrader Hosting, a hosting environment allowing for real-time access to the Client’s account, the Company and its third party suppliers or licensors make no warranties or representations of any kind, whether expressed or implied for the service it is providing. The Company and its third party suppliers or licensors also disclaim any warranty of merchantability or fitness for any particular purpose and will not be responsible for any damages that may be suffered by the Client, including loss of funds, data, non-deliveries or service interruptions by any cause or errors or omissions by the Client. The Client’s use of any information obtained by way of an Expert Advisor used in conjunction with MetaTrader Hosting or otherwise is at the Client’s own risk, and the Company and its third party suppliers specifically disclaim any responsibility for the accuracy or quality of information obtained through its services. Connection speed represents the speed of an end-to-end connection. The Company and its third party suppliers or licensors do not represent or guarantee the speed or availability of end-to-end connections. The Company and its third party suppliers or licensors shall not be subject to any damages or liability for any errors, omissions or delays therein including unavailability. The licensed products and all components thereof are provided on an “as is” basis and are separate and distinct from the services provided under this Agreement. Where the Company believes that a Client is using additional functionalities /plug-ins where it affects the reliability and/or smooth and/or orderly operation of the Electronic Systems, the Company has the right to suspend or terminate the Client’s Account.
- 6.7 The Company makes every effort to deliver high quality products. However, we do not guarantee that our products are free from defects. Our software is provided “as is” and the Client uses the web platform at his own risk. The Company makes no warranties as to performance, fitness for a particular purpose, or any other warranties whether expressed or implied. No oral or written communication from or information provided by the Company shall create a warranty. Under no circumstances shall the Company be liable for direct, indirect, special, incidental, or consequential damages resulting from the use, misuse, or inability to use this software, even if the Company has been advised of the possibility of such damages.

7. CLIENT INSTRUCTIONS AND ORDERS

- 7.1 The Client understands and acknowledges that the Company will enter into transactions with the client as principal (counterparty) not as an agent, but where the client holds a NOZAX Prime account the Company will nonetheless act on behalf of the Client in the capacity of agent for all Client Account Transactions. The Company will be the contractual counterparty to the Client.
- 7.2 The Client can open and close a position via the Electronic Systems and can add or modify orders by placing "buy limit", "buy stop", "sell limit", "sell stop", "stop loss" and/or "take profit" orders on any Financial Instrument.

- 7.3 The Client has the right to use a Power of Attorney to authorize a third person (representative) to act on behalf of the Client in all business relationships with the Company as defined in this Agreement. The Power of Attorney should be provided to the Company accompanied by all identification documents of the representative. If there is no expiry date, the Power of Attorney will be considered valid until the written termination by the Client.
- 7.4 The Client further ratifies and accepts full responsibility and liability for all instructions given to the Company by the representative (and for all Transactions that may be entered into as a result) and will indemnify (fully compensate or reimburse) the Company and keep the Company indemnified against any loss, damage or expense incurred as a result of acting on such instructions. This indemnity shall be effective irrespective of the circumstances giving rise to such loss, damage or expense, and irrespective of any knowledge, acts or omissions of the Company in relation to any other Account held by any other person or body with the Company.
- 7.5 The Client acknowledges that the Company may reject orders and/or instructions by the Client when they are not clear when the Client seeks to open a position, close a position or modify or withdraw an order.
- 7.6 If any Financial Instrument Reference Asset which is a security becomes subject to possible adjustments as a result of any of the events set out in paragraph 7.7 (referred to as "Corporate Event"), the Company will determine the appropriate adjustment, if any, to be made to the opening/closing price, size, value and/or quantity of the corresponding transaction (and also the level or size of the corresponding orders). This action is made in order to (i) account for the diluting or concentrating effect necessary to preserve the economic equivalent of the rights and obligations of the parties under that transaction immediately prior to that Corporate Event, and/or (ii) replicate the effect of the Corporate Event upon someone with an interest in the relevant underlying Reference Asset security, to be effective from the date determined by the Company.
- 7.7 The events to which paragraph 7.6 refers to are any of the following, by the declaration of the issuer of a security:
- a) a subdivision, consolidation or reclassification of shares, a share buy-back or cancellation, or a free distribution of bonus shares to existing shareholders, capitalization or share split or reverse share split or similar event;
 - b) a distribution to existing holders of the shares or additional shares, other share capital or securities, granting the right to payment of dividends and/or proceeds from the liquidation of the issuer equally proportionate to such payments to holders of the underlying shares, securities, or warrants granting the right to receive or purchase shares for less than the current market price per share;

- c) any other event regarding shares analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of shares;
- d) any event analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of any security not based on shares;
- e) any event that is caused by a merger offer made regarding the Company of the underlying asset;
- f) earnings announcements.

7.8 If any Financial Instrument Reference Asset which is a security becomes subject to a specific risk resulting in a predicted fall in value, the Company reserves the right to restrict short selling or even withdraw the specific Financial Instrument from the Trading Platform.

7.9 Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable. The Company shall inform the Client about the Financial Instrument and other related questions in accordance with the Rules of Business Conduct.

7.10 In the case where the Client has any open positions on the ex-dividend day for any of the Financial Instrument Reference Assets, the Company has the right to close such positions at the last price of the previous trading day and open the equivalent volume of the underlying Financial Instrument at the first available price on the ex-dividend day. In this case, the Company will inform the Client via the internal mail of the said adjustment and no Client consent will be required. In the case where the Company's Risk Management deems the Client is deliberately attempting to take advantage of the fact that shares in a particular Spot Index going ex-dividend, the Company reserves the right to apply a dividend adjustment. In the case of short positions, the dividend adjustment will be debited from the clients' account where dividend adjustment = Index Dividend declared x position size in Lots.

7.11 The Client acknowledges that orders shall be executed at the bid and ask prices that are offered by the Company. Due to the high volatility of the market as well as the internet connectivity between the Client terminal and the Company's server, the prices requested by the Client and the current market price may change in the period between the Client placing his order with the Company the time the order is executed. The Client acknowledges that in the case of any communication or technical failure which results in the quotation of off-market prices on the quotes feed (i.e. prices to freeze/stop updating or price spikes), the Company reserves the right not to execute an order or, in cases in which the order was executed, to change the opening and/or closing price of a particular order or to cancel the said executed order.

- 7.12 Considering the levels of volatility affecting both price and volume, the Company is constantly seeking to provide client orders with the best execution reasonably possible under the prevailing market conditions. Client's orders (Buy/Sell, Buy Limit, Buy Stop, Sell Limit, Sell Stop, Stop Loss and/or Take Profit) are executed at the requested/declared price. However, during periods of volatile market conditions, during news announcements, on opening gaps (trading session starts), or on possible gaps where the underlying instrument has been suspended or restricted on a particular market, Buy/Sell Stop and Stop Loss orders may not be filled at requested/declared price but instead at the next best available price. In such case, Take Profit orders below/above Buy Stop/Sell Stop orders or Stop Loss orders above/below Buy Stop/Sell Stop orders during activation will be removed. The same execution policy applies when a trading strategy is deemed as abusive, because it is aiming towards potential riskless profit or another strategy deemed by the Company to be abusive. Accordingly, placing a Stop Loss order will not necessarily limit the Client's losses at the intended amount.
- 7.13 The Company shall not be liable for any delays, inaccuracies or other errors in the transmission of any order, instruction or information from the Client to the Company due to any cause beyond the reasonable control of the Company. Delays can be caused by various reasons depending on the current market conditions (e.g. high market volatility) as well as a slow/weak internet connection (e.g. between the Client's terminal and the Company's server).
- 7.14 "Manifest Error" means a manifest or obvious misquote by the Company or any market, liquidity provider or official price source on which the Company has relied in connection with any Transaction, having regard to the current market conditions at the time an order is placed as the Company may reasonably determine. When determining whether a situation amounts to a Manifest Error, the Company may take into account any information in its possession, including information concerning all relevant market conditions and any error in, or lack of clarity of, any information source or announcement. the Company will, when making a determination as to whether a situation amounts to a Manifest Error, act fairly towards the Client but the fact that the Client may have entered into, or refrained from entering into, a corresponding financial commitment, contract or Transaction in reliance on an order placed with the Company (or that the Client has suffered or may suffer any loss) will not be taken into account by the Company in determining whether there has been a Manifest Error.
- 7.15 In respect of any Manifest Error, the Company may (but will not be obliged to):
- a) the details of each affected Transaction to reflect what the Company may reasonably determine to be the correct or fair terms of such Transaction absent such Manifest Error;
or
 - b) declare any or all affected Transactions void, in which case all such Transactions will be deemed not to have been entered into.

- 7.16 The Company will not be liable to the Client for any loss (including any loss of profits, income or opportunity) the Client or any other person may suffer or incur as a result of or in connection with any Manifest Error (including any Manifest Error by the Company) or the Company decision to maintain, amend or declare void any affected Transaction, except to the extent that such Manifest Error resulted from the Company own willful default or fraud, as determined by a competent court in a final, non-appealable judgment.
- 7.17 Considering the volume of the Client's order and the current market conditions, the Company shall have the right to execute part of an order only.
- 7.18 The Company has the right at its discretion to increase or decrease Spreads of Financial Instruments depending on the current market conditions and the size of the Client's order.
- 7.19 The Swap rate is mainly dependent on the level of interest rates as well as the Company fee for having an open position overnight. The Company has the discretion to change the level of the Swap rate on each Financial Instrument at any given time and the Client acknowledges that he will be informed on the trading platform. The Client further acknowledges that he is responsible for reviewing the contracts specifications located on the trading platform for being updated on the level of Swap rate prior to placing any order with the Company.
- 7.20 The Company reserves the right to disable and/or enable swap free trading for Client's trading account and/or reverse any cumulative profits derived from the said trading at any given time and/or retrospectively charge the waived swap fee. This can occur at times where there is suspicion of swap abuse aiming at generating riskless profit where the Client abuses the Company trading conditions/systems or where the Client's trading strategy imposes a threat to the Company trading facility or where the Company deems necessary in order to protect the smooth operation of its trading facility. The Client further acknowledges that swap free applies for 10 calendar days only. Therefore, swap free accounts holding a position open for more than 10 calendar days, will be credited or debited swap accordingly. Note that a storage amount may apply instead for swap free account equivalent to the swap rates. In such case, the storage amount will be credited/debited in the form of deposit/withdrawal from the account equity.
- 7.21 Internet, connectivity delays, and price feed errors sometimes create a situation where there is price latency on the Electronic Systems such that there is a disparity between the Company quoted prices and current market prices for short periods. Client expressly acknowledges and agrees that it shall not execute Transactions with the Company that rely on price latency arbitrage opportunities either by using additional functionalities/plugin-ins (i.e. Expert Adviser, etc.) or by any other means. If the Client acts in contravention of this clause the Company reserves the right to (i) make corrections or adjustments to the relevant Transaction execution prices to reflect what would have occurred had there been no price latency arbitrage; and/or (ii) cancel all the relevant Transactions; and/or (iii) terminate without notice the Client's Account with the Company; and/or

(iv) charge an administration fee equal to 10% of the deposited funds, with the maximum charge set at \$200 or deposit currency equivalent.

7.22 Client is responsible for keeping any information regarding your dealing with us, private and confidential. We will bear no responsibility in the event that any person attains unauthorized access to any information regarding your dealings with us, where that information is:

- a) held by Client;
- b) being transmitted via electronic or any other means, by the Client to the Company and/or any other party authorized by the Company;
- c) being transmitted via electronic or any other means, by us to you and/or any Authorised Representative

8. EXPIRY TRANSACTIONS

8.1 For certain Financial Instrument Transactions an expiry date may apply (an “Expiry Transaction”). The details of these dates are available in the Contracts Specification on the trading platform. The Client acknowledges and agrees that the Company will have the right to close any Transaction in its sole and absolute discretion without notice if the Reference Asset is a derivative Financial Instrument which may settle on expiry by a delivery other than in cash, a reasonable period prior to the expiry date as determined in the sole and absolute discretion of the Company. The Company will not be subject to any obligation to roll over a position in such a derivative Financial Instrument.

8.2 The price of an Expiry Transaction will be (a) the last traded price at or prior to the close or the applicable official closing quotation or value in the relevant Reference Asset as reported by the relevant exchange or market, errors and omissions excluded; plus or, as the case may be, minus (b) any Spread that the Company applies when such an Expiry Transaction is closed. Details of the Spread that the Company applies when a particular Expiry Transaction is closed are available on request.

9. MARGIN LEVERAGE LEVELS

9.1 As a condition of entering into a Transaction, the Company requires the deposit of Margin to secure the Client’s liability to the Company for any losses which may be incurred in respect of the Transaction. The “Leverage Level” is the ratio of Margin to the market value of the open Transaction position which it secures. By accepting this Agreement the Client has read, understood and accepted the “Leverage Levels” as these are shown on the trading platform. The global supervisory bodies regulate forex by setting standards which all brokers under their jurisdiction must comply with. These standards include being registered and licensed with the regulatory body, undergoing regular audits, communicating certain changes of service to their clients, and more. This helps ensure that currency trading is ethical and fair for all involved.

- 9.2 Margin requirements or Leverage Level may be set and varied without prior notice from time to time in the Company's sole and absolute discretion in order to cover any realised or unrealised losses arising from or in connection with Transactions, including subsequent variation of any Margin rates set at the time Transactions are opened. The Client can request to change his account leverage at any time by contacting the Company. The Client acknowledges that the Company has the discretion to change the Client's trading account leverage at any given time, without the Client's consent, either on a permanent basis or for a limited period of time, within the maximum leverage ratio as set by this article. Such an event will be disclosed to the Client by the Company via its internal mail or by email. On every Friday and between the hours of 21:00 till 24:00 and occasionally before the release of major economic news, the Company maintains a maximum leverage of 100:1 on FX and 4 times the standard Margin requirement on remaining instruments other than FX for any new positions opened during the said specified period.
- 9.3 The Client is obliged to maintain in his Account, at all times, sufficient funds to meet all Margin requirements. In addition, the Company will be entitled to treat any assets deposited with it by the Client from time to time (other than assets deposited for safe custody only) as collateral against the Client's Margin requirements. Only funds received net of any bank charges, which relate to the transfer, will be credited as paid.
- 9.4 For NOZAX Prime accounts, in the event there is insufficient Margin in the Clients Account or in the event that the deposited Margin is not sufficient to meet the required Margin rates, as determined by the Company it may immediately close or terminate the Client's Transaction and Account without notice. Without prejudice to the generality of the foregoing, the Company shall have the right, but shall not be obliged, to start closing Client's positions starting from the most unprofitable, when the Margin is less than 100% of the Margin or Leverage Level requirement. In the case where the Margin is equal to or less than 80% of the Margin or Leverage Level requirement, then Client's positions shall be automatically closed, starting from the most unprofitable, at the then market price.
- 9.5 For any account other than a NOZAX Prime account for which there is insufficient Margin in the Clients Account, or in the event that the deposited Margin is not sufficient to meet the required Margin rates, as determined by the Company it may immediately close or terminate the Client's Transaction and Account without notice. Without prejudice to the generality of the foregoing, the Company shall have the right, but shall not be obliged, to start closing Client's positions starting from the most unprofitable, when the Margin is less than 40% of the Margin or Leverage Level requirement. In the case where the Margin is equal to or less than 20% of the Margin or Leverage Level requirement, then Client's positions shall be automatically closed, starting from the most unprofitable, at the then market price.

- 9.6 The Client acknowledges that he is responsible for monitoring the Margin on his Account and for reviewing the difference between each account types located on the Main Website prior to opening an account and/or placing any order with the Company.
- 9.7 The Company reserves the right to change the Client Account type from premium to standard and vice versa based on the total Margin deposits made on the Client's account as well as based on the Client's trading account current balance.

10. REFUSAL TO EXECUTE ORDERS

- 10.1 The Company has the right to refuse to transmit and/or execute an order without any given notice and/or explanation to the Client. Among the cases that the Company is entitled to do so are the following (this list is non-exhaustive):
- a) If the Client does not have the required Margin in the Client Account;
 - b) If the execution of the order would have an adverse effect upon the smooth operation or the reliability of the Trading Platform;
 - c) If the order or its execution may have the object or effect of Market Abuse;
 - d) If the order may have the object or effect of money laundering in contravention with applicable regulations
- 10.2 It is understood that any refusal by the Company to transmit and/or execute an order shall not affect any obligation, which the Client may have towards the Company, or any right, which the Company may have against the Client or his assets.

11. SETTLEMENT OF TRANSACTIONS

- 11.1 The Company shall proceed to a settlement of all Transactions upon execution of such Transactions. Unless otherwise agreed, the settlement of Transactions shall be in accordance with the normal practice for the Financial Instrument or market concerned.
- 11.2 The Company provides the Client with online access to confirmations and account statements.

12. CLIENT ACCOUNT

- 12.1 The Client must open a Client Account with the Company before any Transaction may be concluded. This Agreement shall be considered effective upon the first receipt of funds in the Client's Account, provided that the Company has sent the Client written confirmation of his acceptance.
- 12.2 The Client shall not use the Client Account for payment to third parties.
